

Good Habits. Good Print.™

## Habitat® MRCD

We know if a Genie could grant you one wish it would be to have a product that cleans and desensitizes chrome and rubber dampening rollers in one step. Well today is your lucky day; your wish has come true! Habitat's MRCD cleans and desensitizes chrome and rubber dampening rollers in one step. After a little elbow grease the first few times you use it, you won't have to clean your rollers as often AND they will last longer! Looks like you're going to have to find something else to wish for now.

### ***Metering/Chrome Cleaner and Desensitizer Procedure:***

1. Remove water pan level ring. Allow water level to drop below pan roller contact.
2. Utilize tight fitting gloves for skin protection.
3. Shake Habitat MRCD well and apply liberal amount to a damp sponge.
4. Apply Habitat MRCD with slight pressure to a slowly rotating metering roller. Turn sponge over and apply liberal amount of Habitat MRCD and again with pressure repeat the application.
5. A light film will appear on the metering and chrome water rollers after ink has been cleaned from the rollers. You are ready to replace the pan ring and print.

VOC: 1.6lb/gal    192g/l

NFPA

Does not contain SARA 313, HAP's or Prop 65 chemicals

Made in the USA by Americans
