

Good Habits. Good Print.™

Habitat® Plate Gum & Additive

Yeah, everyone has this kind of stuff sitting around in their pressroom but ours is safer, works better and is really the product you should be using. Why? Because Habitat Plate Gum & Additive can be used to protect plates in storage, and you can add it to your fountain solution to prevent and eliminate plate sensitivity. And did we mention Habitat's Plate Gum & Additive is safer, works better and is really the product you should be using? Oh – that's right – we did.

Habitat Plate Gum & Additive Use:

Add 1-2 ounces per mixed U.S. gallon of Fountain Solution to eliminate plate counter etching, plate artifacts, plate sensitivity and plate piling.

Habitat Plate Gum & Additive can also be applied directly to the plate surface after honing or for scratches.

Plate Gum & Additive is also used for plate application in the event of prolonged press down time.

VOC: 0

Flashpoint >200° F

Does not contain SARA 313, HAP's or Prop 65 chemicals

Meets South Coast Air Quality Management District Rule 1171

Packaging:

1 Gallon/3.8 Liter Bottle (4 per case)
