

Good Habits. Good Print.™

Habitat® TF Fountain Solution

Alcohol and other harsh chemicals are for after hours. Habitat TF Fountain Solution is non-solvent based which means sharper dot, exceptional color control, improved drying, faster start-ups and increased ink mileage. TF was developed for 'High Solids' conventional inks as well as with UV and Hybrid/Co-cure. All this and you won't smell like a pressroom so you can make it to happy hour on time!

Habitat TF Fountain Solution Use:

For press operation, start with 4-6 ounces per gallon. Adjust level up or down one or two ounces until optimum condition of ink/water balance is achieved. Conductivity readings can be used to monitor a proportioning system. Solution maintains pH between 3.8-5.0. Habitat is designed for all water conditions.

Recommended Roller Settings

Set all form rollers slightly heavier to the oscillators and chrome than to the plate

- Water form to plate stripe: 3-4mm
- Water form to chrome: 4-5mm
- Ink form/s to plate: 3-4mm
- Ink form/s to oscillators: 4-5mm

VOC: 0.4lb/gal 47.93g/l

Flashpoint >200° F

Does not contain SARA 313, HAP's or Prop 65 chemicals

Meets South Coast Air Quality Management District Rule 1171

Packaging:

2 ½ Gallon/9.5 Liter

5 Gallon/19 Liter

30 Gallon/114 Liter

55 Gallon/210 Liter
